Where are the 5G network base stations in Afghanistan

Overview

Who is Afghanistan's fastest mobile network?

Afghan Wireless (AWCC) was Afghanistan's first mobile communications company today it has over 5 million subscribers. They recently topped Afghanistan's fastest mobile internet networks based on analysis by Ookla of tests taken with Speedtest® covering the first half of 2020.

Where can I get 4G in Afghanistan?

Mobile network operators in Afghanistan provide 4G LTE services primarily in major cities, while 3G services are available in most provinces, and 2G services are predominantly offered in rural areas. For information on MNOs please visit the GSM Association website. Programmes?

How many GSM phones are there in Afghanistan?

As of 2023, Afghanistan has an estimated 32 million GSM mobile phone subscribers, reflecting significant growth in mobile communications since the introduction of wireless carriers in the country. While fixed-telephone lines have decreased in popularity, with approximately 114,000 lines still in service, mobile networks continue to expand.

Are mobile networks reliable in Afghanistan?

Mobile network coverage in Afghanistan continues to be extensive, with major operators like Afghan Wireless, Etisalat, MTN, and Roshan providing services across most provinces. However, the reliability of these networks has been affected by infrastructure challenges, particularly in rural and contested areas.
