Which Niger Telecom has the most solar sites

Overview

Where is solar energy used in Niger?

Solar energy is well-suited for use in Niamey and Zinder, located at lower latitudes, as they show less variability in solar radiation throughout the year. Niger has a long history of solar energy use, which began in the mid-1960s with the establishment of the Centre National d'Énergie Solaire (National Solar Energy Centre; CNES).

How has solar technology been promoted in Niger?

Solar PV and other solar energy technologies have been promoted in Niger through various outlets, including the national school television programme. Installation of solar technology has continued, particularly in PV pumping areas and through education and health infrastructure electrification.

Are there any off-grid solar energy systems in Niger?

Yes, there is considerable experience of off-grid solar energy systems in Niger. These include off-grid PV electrification, water pumping, and solar water heating systems. The main decentralised renewable energy system promoted in Niger for rural electricity is solar PV.

What are the major telecom companies in Niger?

Niger Telecom (Sonitel, SahelCom), Bharti Airtel (Airtel Niger), Zamani Telecom (Orange Niger), Atlantique Telecom, Moov, Maroc Telecom, Etisalat, African Development Bank. Download the latest report on the Niger Telecom Industry. Niger's junta extracting funds from the telecom sector.
