

Which North American communication has more 5G base stations

Overview

Which 5G base station market dominated the global market in 2023?

The Asia Pacific 5G base station market dominated the global market in 2023 and accounted for 32.67% of the revenue share.

What is 5G Americas?

5G Americas provides global and North American statistics relating to 5G and LTE networks. The information provided here is based on data provided from Omdia 's extensive database of network-related statistics. Graphics may be reproduced with attribution to 5G Americas and Omdia. View our charts and statistics for the 5G Americas regions.

Why is the 5G base station market growing?

The surging demand for high-speed connectivity is a significant factor driving the growth of the 5G base station market. In terms of region, Asia Pacific was the largest revenue generating market in 2023. In terms of segment, hardware accounted for a revenue of USD 33,472.5 million in 2023.

Why do we need a 5G base station?

As the number of IoT devices continues to grow, particularly in sectors such as healthcare, agriculture, transportation, and manufacturing, there is an increasing need for a robust and expansive 5G network. This demand is driving the installation of more 5G base stations to ensure that IoT systems can operate efficiently and reliably.
