

# Which new energy storage company is best in Apia

## Overview

---

Where will a new battery energy storage system be installed in Australia?

The new system was designed in collaboration with Private Energy Partners, a Quinbrook affiliate. It will be deployed at multiple sites across Australia. These include Brisbane's Supernode, the country's largest battery energy storage campus.

Is Tesla Energy a good energy storage company?

Tesla Energy's energy storage business has never been better. Despite only launching its energy storage arm in 2015, as of 2023 the company had an output of 14.7GWh in battery energy storage systems. Its portfolio includes storage products like the Powerwall and the Megapack.

Does Tesla have a battery storage business?

Tesla has been growing its energy storage business in recent years. Established as a key player in the electric automotive industry, it has diversified its offerings to include battery storage — now one of its strongest offerings. Tesla Energy's energy storage business has never been better.

What is a Highview solar energy storage facility?

The first is a 90 MW, 10-hour storage facility on the Katherine-Darwin network. The other one is a 30 MW, 12-hour facility near the Owen Springs Power Station outside Alice Springs. These projects integrate solar power with Highview's proprietary Liquid Air Energy Storage (LAES) technology to provide a stable, base-load renewable energy supply.
